

CALL FOR PROGRAM CHAIR FELLOWSHIPS

We invite applications for up to four Program Chairs for the Academic Year 2024-2025. Under the banner of future-oriented humanities, our programs are structured around three interconnected themes: *The Human Condition in the 21st Century*, *The Future of Democracy*, and *Socio-economic Transformation*. We invite individuals or individuals who already assembled a team to apply with concrete projects related to these themes. For examples of our programs in 2023/2024, see <https://thenew.institute/en/programs>.

Together with us, through our open call and direct applications, Program Chairs have the opportunity to assemble up to four Fellows to form an intellectual “dream team” with the potential to propel research into a new dimension. Chairs will have made outstanding, innovative contributions to the project with which they apply. Their projects will require interdisciplinary and trans-sectoral work for their realization. Program Chairs and Fellows will be supported by a Program Coordinator (typically a post-doc or graduate student) who will be employed for the duration of the project to assist with research and administrative tasks.

Program chairs stay for an entire Academic Year. Fellows stay from 1-3 terms depending on availability and capacity.

ABOUT THE NEW INSTITUTE

On the basis of humanistic and social-scientific reflection on human becoming in the 21st century, THE NEW INSTITUTE develops concrete visions of future socio-economic and political realities. We gather thinkers and practitioners with interdisciplinary and intercultural backgrounds in academia, politics, business, media, the arts, and technology around concrete projects that effect positive social change under conditions of social complexity.

THE NEW INSTITUTE promotes progressive modes of knowledge-production and insight generation. This requires integrated interdisciplinary and trans-sectoral cooperation between academics and practitioners.
